

NATIONAL FORUM OUTREACH

The ICE Gathering is **the only** national event that every year brings together First Nations, Inuit and Métis leaders in clean energy, experts and practitioners, partners, utilities, academics, and governments from across Canada to strengthen relationships and foster essential strategies to advance a clean energy transition.

We welcome participants from coast to coast to coast to connect and re-energize at this unique event, which creates a space for meaningful conversations and partnerships to advance Indigenous inclusion in renewable energy projects and infrastructure, community-led microgrids, energy efficiency, and advanced energy systems.

NEW PARTNERSHIPS IN ACTION

The 2022 ICE Gathering will foster conversations around a central theme: Partnerships, Policies, and Pathways. The event will provide an opportunity for new partnerships to form, to inform policy, and to create pathways for Indigenous inclusion in the clean energy transition.

HIGHLIGHTS:

- » **2 DAYS** of catalyzing clean energy collaboration
- » Diverse sessions from Indigenous leaders, communities, and industry
- » Variety of draws, giveaways and prizes to be won throughout the week

The 2022 ICE Gathering will bring a variety of insightful and dynamic sessions to the live stage.

- » Employer Equity
- » Energy Storage
- » Electric Vehicle Infrastructure
- » Emerging Clean Tech
- » Indigenous Youth Leadership in Clean Energy
- » Green Energy Infrastructure
- » Global Community-led Microgrid Projects
