Know a project that should be on the map? Submit this form and we'll get it added!

Please fill out this form with as much information as you are willing or able to. Only basic information will be shared on the project maps. Any additional info you share will be securely kept in a database. It will be used to track and tell the story of Indigenous involvement in clean energy (creating reports like [this one](#)).

Please don't share any confidential information.

Add a Project

Information shared through this form may be included in future reports produced by ICE on Indigenous involvement in clean energy.

* Required

Project Name *

Your answer _____

Project Type *

What kind of project is it? (Wind, solar, energy efficiency, storage, transmission, etc.)

Your answer _____

Location *

Your answer _____

Project Size *

If it's an energy project, please give the nameplate size of the project (i.e. how many Kw or Mw). If it's a different type of project (like transmission or energy efficiency), gives us a sense of the scope of the project (e.g. how many homes/buildings, etc.)

Your answer _____

Indigenous Community(ies) Involved*

Your answer

Partner(s) (If applicable)

Your answer

Type of Partnership

For example: Equity, impact benefit agreement, etc.

Your answer

Indigenous Ownership of Project (as percentage)

Your answer

Project Website (if available)

Could also be a link to a news article about the project.

Your answer

Additional Information

Please include any additional information you want to share about the project. This might include employment created, environmental impacts, etc.

Your answer

Your Name (optional)

In case we want to follow up about your project.

Your answer
