

B.C. Indigenous Youth Engagement Webinar in home energy conservation

Published 31-Mar-21 by [Sara Fralin](#)

Indigenous Youth Engagement in Energy Efficiency

Aboriginal Housing Management Association (AHMA) is planning a youth engagement webinar on May 27, 2021, in partnership with FBC's First Nations Home EnergySave program and ICE.

Join this peer networking event to meet Indigenous youth interested in energy efficiency, and learn about Kanaka Bar's **Kanpower** Challenge, from Lands Manager, Serena **Michell**.

We are seeking Indigenous youth ages 18-30 years, who are working in Indigenous housing, interested in home energy conservation, or passionate about high-performance/green buildings in B.C.

If this sounds like you or someone you know, contact me ([Sara Fralin, AHMA's energy advisor at sfralin@ahma-bc.org](#)) to get involved.

Thank you,

SARA FRALIN, Energy Advisor - Indigenous Housing, Asset Strategies
