

What is Power Hour and what happened to CoLabs?

Published 18-Nov-21 by [Shelby Heaney](#)

Hello ICE Community!

We've been working hard this summer to make our CoLabs more impactful for the ICE Network community. Many changes are coming, and we are excited to show you what we have planned, starting with: a new name!! In case you missed it during our October CoLab, [Hydrogen Strategies](#), CoLabs name will be changing to ICE Power Hour!

Don't worry, the CoLab series is not ending, we're just changing the name, that's all. Will we still be holding them on Zoom? You bet! Will they still be free to attend? Of course! Will we continue to share successful Indigenous clean energy project stories and invite these leaders and community champions to speak at our webinars? Absolutely and much more!

Get excited for deeper conversations about the pathways, policies, and partnerships needed to move Indigenous clean energy projects forward.

Stay tuned for updates on the next ICE Power Hour, Pathways to Efficient Housing November 24th, where we will be hearing from Indigenous communities and organizations building energy-efficient housing that reduces long-term costs while providing more comfortable living for community members.
