

The Government of Canada wants clean energy! Renewable Energy Certificates

Published 18-Jan-22 by [Alison Guilford](#)

To follow through on the commitment to green federal buildings by 2025, the Government of Canada wants to purchase Renewable Energy Certificates from net new solar or wind energy generation across Canada.

Two RFPs are now available for wind and solar generators with a closing date of 2022-04-12

Make sure to check out these RFPs as they feature a minimum Indigenous participation requirement for clean generation and a portion of this initiative has been set aside specifically for YOU!

Don't hesitate! Check out the RFPs at:
