

POSITION: Program Co-ordinator – ICE Network & Energy Efficiency Initiatives

Published 17 days ago by [Bonnie Van Tassel](#)

Indigenous Clean Energy (ICE) Social Enterprise is seeking a Program Co-ordinator to support the ICE Network and ICE's emerging energy efficiency initiatives. The successful candidate will help bring the ICE Network to life through active engagement of Network members, organizing content, and supporting events. They will also provide research, analysis, and coordination support for ICE's emerging national energy efficiency initiatives. The successful candidate will be comfortable reaching out to partners and contributors and have a strong ability to gather and synthesize information. Travel within Canada may be required.

We are an equity employer and encourage all interested people to apply. However, First Nations, Inuit or Métis candidates will be given priority, please self-identify.

Successful candidates will be expected to balance their time between network co-ordination, supporting research and engagement, and other tasks as necessary.
